A key feature of the Rose Teb brand is its special attention to customer needs and continuous improvement of product quality. By utilizing high-quality raw materials and advanced production processes, the company offers products that meet both domestic and international standards. The specialized and experienced team at Rose Teb constantly strives to introduce new and more efficient products to the market through innovation and research.

Ultimately, Rose Teb, adhering to ethical principles, respecting customer rights, and maintaining the highest quality standards, aims to provide distinctive services and promote public health. With a long-term vision, the company seeks continuous development and improvement of its processes to meet the present and future needs of its customers.

Rose Teb, with over a decade of experience in the production, trade, and distribution of medical consumables, is recognized as one of the pioneers in the healthcare industry in the country. Relying on up-to-date technical knowledge, advanced technology, and a commitment to quality, the company offers a wide range of products that meet international standards.

Rose Teb is engaged in the production and distribution of various single-use syringes, high-quality ampoules, alcohol pads with high disinfectant power, and patient gowns adhering to hygiene standards. Each of these products is carefully monitored from production to distribution to ensure maximum safety and effectiveness for the consumers.

Rose Teb medical gloves are made from high-quality, skin-friendly materials. These disposable gloves are available in various types such as latex, nitrile, and vinyl to meet diverse needs. Rose Teb medical gloves are highly resistant to tearing and chemical penetration, providing excellent protection for healthcare personnel against potential hazards.

Medical Gloves

Spinal Needle

Rose Teb produces spinal needles with unparalleled precision and quality. These needles, designed uniquely for spinal injections and local anesthesia, are manufactured to minimize pain and maximize efficiency. Rose Teb spinal needles, with their sharp and precise tips, enable accurate and swift drug injections, reducing the risk of side effects.

Syringes

Rose Teb syringes are designed and produced with high precision and quality. These syringes come in various types, including single-use syringes, Luer lock syringes, and insulin syringes. Rose Teb syringes are highly secure, offering leak-free and accurate injections, and are widely used in medical procedures, especially in hospitals and clinics.

Angiocath

Rose Teb's angiocath, with its ergonomic design and superior quality, is used for facilitating injections and intravenous catheterization. Made from high-quality medical materials, these Angiocaths feature a sharp tip, a soft and durable covering, and precise blood flow control, ensuring minimal pain and maximum accuracy during intravenous injections.

Rose Teb disposable bed sheet rolls are produced from soft and durable materials to maintain hygiene and prevent infection transmission in medical settings. These rolls are available in various sizes and easily fit hospital, clinic, and healthcare beds. Rose Teb disposable bed sheets, with their liquid absorption capability and tear resistance, are an ideal choice for ensuring patient hygiene and safety.

Disposable Bed Sheet Rolls

Leukoplast Adhesive Tape

Rose Teb leukoplast adhesive tapes, widely used in medical environments, offer high adhesive strength and low sensitivity. These tapes adhere well to the skin with their soft and flexible texture, preventing the displacement of dressings and medical devices. Rose Teb's leukoplast tapes are also hypoallergenic, making them suitable for long-term use.

Masks

Rose Teb respiratory masks are designed with high-quality filters to protect against airborne particles and pathogens in medical environments. These masks, made with multiple layers and hypoallergenic materials, fit well on the face and provide comfortable breathing. Rose Teb masks are produced in various types, including surgical masks and N95, and are available in the market.

Patient Underpads

Rose Teb patient underpads, with their high absorption capacity and protective layers, are specially designed for use on hospital beds and at home. These underpads, featuring a waterproof and soft layer, prevent fluid leakage onto the surface below, ensuring a clean and sanitary environment. Due to their high quality and durability, Rose Teb underpads are widely used in various healthcare facilities.
